# INTRODUCTION

Welcome to UCM60102U the Community Service Learning module for SABD Degree students!

Community Service is a form of service learning. Service learning is basically using curriculum to help foster a sense of care and concern among students for their community and the world at large. This can be your village, an orphanage, socially disadvantaged individuals or a distant dying species. In the process of your recognizing and taking steps to meet the needs of others, you will enhance your creative, critical and reflective skills.

More importantly, this module will help develop your personal and social responsibility. You will learn through participation in a service experience and you will have the opportunity to use your skills and knowledge in reallife situations. You will be exposed to community needs and experience caring for others and learning about the resources available to them for revitalizing their communities.

Finally, you will have the opportunity to develop basic knowledge and skills in community service strategies, avenues, and techniques, including the art of volunteerism.

## **DELIVERY METHOD**

#### **TEACHING AND LEARNING METHODS**

#### **√** LECTURES

Lectures are direct communication between students and lecturers in the lecture hall in which the lecturer conveys information to the students. Two-way interaction is minimal as it focuses on the explanation and discussion of the concepts, theories and examples related to the topics.

Class attendance is compulsory. Students are advised to attend lectures because important information related to the module such as syllabus as well as types and methods of assessment will be covered during the lecture sessions. Failure to attend lectures may lead to confusion and misunderstanding on the module assessment and topics discussed in the coming classes.

#### **√** SELF-INDEPENDENT STUDY

Students should not expect to master the module by attending lectures only. Students also should not fully rely on information and materials provided by the lecturer. Students are responsible to do exercises, self-study and search for additional information and references from the library or the internet.

#### ASSESSMENT DETAILS

Students should **maintain at least 80% of attendance** throughout the semester in order to pass. *Take note that this should include the duration of the project/activity.* 

If a student is unable to participate in any assessment due to some extenuating circumstance, notification in writing by e-mail or letter should be given to the Module/Project Leader /Lecturer concerned within 24 hours of the assessment time or at least one (1) working day of the date of assessment. Upon return the student is to produce a detailed explanation in writing supported by documentary evidence of his/her absence for the assessment to the Module/Project Leader/Lecturer. If accepted, the student will be allowed to do an alternative assessment that would be decided by the Module/Project Leader/Lecturer whose decision would be final.

Note: Extenuating circumstances are circumstances which are unforeseen, unexpected, significantly disruptive and beyond a student's control. Circumstances that are unlikely to be accepted as extenuating circumstances include the following:

- personal illness or disability that are not supported by a doctor's report
- normal stress or anxiety experienced during revision or the assessment period (unless corroborated by medical evidence as a <u>chronic</u> condition and undergoing treatment).
- non serious domestic or personal disruptions (eg moving house, change of job, holidays, weddings, normal job pressure, failed travel arrangements, financial difficulties, oversleeping).
- study related circumstances (equipment failure including computing/printer difficulties (unless they occur in the examination/assessment itself), failure to have taken back up copies for work stolen or corrupted, missing books, poor time management, misreading the examination/assessment timetable).

(Note: The above list is not exhaustive).

Students are awarded a final grade which corresponds with the marks obtained.

Students must obtain a minimum of 50 marks in order to pass. Students must pass this module in order to graduate.

All students must adhere to the *Taylor's University's Examinations, Assessment Policies and Procedures* manual available at <u>http://portals.taylors.edu.my</u>.
